SUBRATA MALLICK

Garulia, West Bengal | +91-8240035364 | mallicksayan407@gmail.com | https://www.linkedin.com/in/subrata-mallick-3b4ba4352

PROFESSIONAL SUMMARY

ECE graduate with hands-on experience building full-stack applications using Java, Spring Boot, MySQL, Python, React and REST APIs. Developed projects involving enterprise backend architecture, face recognition, machine learning prediction, data visualization and API integration. Seeking an entry-level software development role where I can apply strong programming, database and problem-solving skills.

TECHNICAL SKILLS

Languages: Java, C++, Python, JavaScript, C
Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, FastAPI
Frontend: HTML, CSS, JavaScript, React, Recharts
Database: MySQL, SQL
AI/ML: scikit-learn, Machine Learning, Face Recognition, InsightFace
Tools: Git, GitHub, Gradle, Postman, Swagger/OpenAPI
Core: Data Structures & Algorithms, OOP, DBMS, DTOs, Validation, Exception Handling

EDUCATION

B.Tech — Electronics and Communication Engineering | Academy of Technology 2022–2026 | **CGPA: 7.95**

Higher Secondary (12th) | Bhatpara Amarkrishna Pathsala (H.S.) | 2022 | 80.8%

Secondary (10th) | Bhatpara Amarkrishna Pathsala | 2020 | 88.85%

PROJECTS

Cricket Analytics | Java 21, Spring Boot, MySQL, Python, React, JavaScript, Recharts

https://cricket-analytics-two.vercel.app | https://github.com/MallickSayan407/CricketAnalytics

- Developed a full-stack cricket analytics platform covering international cricket and IPL data using Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Python and React.
- Built analytics modules for players, teams, matches, venues, seasons, leaderboards and player comparison with competition/season filtering and interactive visualizations.
- Developed an ODI match prediction service using Python and scikit-learn, exposed predictions through FastAPI and integrated the ML service with the Spring Boot backend.
- Implemented a Monte Carlo ODI tournament simulator for qualification and championship probability analysis.

Face Attendance System | Java 21, Spring Boot, MySQL, Python, InsightFace, HTML, CSS, JavaScript

https://github.com/MallickSayan407/face-attendance-system

- Developed a full-stack employee attendance system using Spring Boot, Spring Data JPA, Hibernate, MySQL and Python with layered architecture.
- Built REST APIs for employee management, image upload, attendance tracking, duplicate prevention and attendance summaries using DTOs and centralized exception handling.
- Integrated a Python-based InsightFace recognition service with the Spring Boot backend and developed a web frontend for employee management and face-based attendance.

Employee Management System | Java, Spring Boot, MySQL, HTML, CSS, JavaScript

https://github.com/MallickSayan407/employee-management

- Developed a full-stack employee management application using Java 21, Spring Boot, Spring Data JPA, Hibernate and MySQL with layered architecture.
- Implemented RESTful CRUD APIs with DTOs, validation, exception handling, pagination, sorting and employee search/filtering.
- Developed the frontend and integrated Swagger/OpenAPI, Postman, Gradle, Git and GitHub for API documentation, testing and version control.

Substrate Analysis on the Design of Wide-band Antenna for 5G Sub-6 GHz Communication | Academic Project | 2024–2026

TRAINING & CERTIFICATION

Certification of Training in Railway under Sealdah Division — EI, Telecom works, OFC, LC Gate, UTS and PRS

INTERESTS

Cricket, Football, Recitation
